

August of 2016

IMPORTANT NOTICE
(Official location)

The organizer committee of the **1st International Forum of Mexican Talent “Innovation Match Mx”**, announces the **official location** of the event to the **Expo Guadalajara** in Guadalajara, Jalisco, on the days **6th, 7th and 8th of April of 2016**. Also, considering that the date of the event should be reprogrammed because of the lack of available dates on diverse locations, the organizer committee established as a new deadline to present the abstracts the **15th of August of 2015**.

During the first semester of this year Mexico lived the election process for deputies, majors and governors in a great part of the estates of the Mexican Republic. This electoral process affected in some aspects the established work program of Innovation Match Mx. On one side the electoral ban, on the other there were some difficulties to do some posterior commitments to the election dates because of the incertitude of the results. Nevertheless there were some locations interested but due to some technical factors the decision of analyzing other locations was made, as a result Guadalajara was established as definitive location, same that is supported with official sustenance by the Secretariat of Innovation, Science and Technology of Jalisco and all the institutions of the Innovation System of the state. We are sure that with this support and the experience of the institutions and companies of Jalisco the event will have great benefits.

The city of Guadalajara, presents a high academic level since it counts with Universities and Research Centers that make the city attractive for scientists and students. It is as well headquarters of important corporations in the textile, metal mechanics, pharmaceutical, electronics and software industries. Also, Guadalajara lives nowadays a strong cultural movement added to a great quantity of historical, architectonic attributes that provide this place with a great attractive in all aspects for the realization of this International Forum.

Expo Guadalajara today is the more important Center of Exhibitions, Congresses and Conventions of Mexico. Guadalajara has a capacity of approximate 250 hotels with more than 18,000 rooms of which 4490 are within the surroundings of Expo Guadalajara at walking distance for the participants of the event. Also, showrooms of Expo Guadalajara count with unique characteristics in Latin America, because of their adaptability for different exhibitions, fairs, congresses, conferences, capacity for a great number of participants, etc., which leads it to be the chosen location for a great quantity of events. The growing demand of this place, has lead us to postpone the initial date for the event and move it from October to April of 2016. It is important to highlight that the decisions are made with the main objective of improving Innovation Match Mx and to act in benefit of all the interested.

1er Foro Internacional de Talento Mexicano
INNOVATION MATCH MX 2015 - 2016

ARTICULANDO CONOCIMIENTO GLOBAL

Innovation Match Mx has now the valuable support of the Government of the State of Jalisco, as well as the Secretariat of Innovation, Science and Technology of Jalisco, that without any doubt have a great motivation and commitment to support this important event with the aim of promoting the generation of new business opportunities through the linking of research works and the development of the scientific, technological and creative industries areas with Mexican companies.

Between the main objectives of this forum is that researchers and postgraduate students worldwide, present and expose their work in the scientific, technological and creative industries areas, for purposes of linking with mexican companies interested on promoting the generation of new business opportunities in the national productive sector, propitiate opportunities for labor incorporation, stimulate the creation of new technology-based companies, arrange research projects linked to mexican companies and prestigious institutions around the world and formulate public policy proposals.

Furthermore, Innovation Match Mx announces a new objective for the forum: the constitution of a **Fund for Initial Support** for projects that emerge from the links made in IMMx, which means that investigators and companies linked during the Match Process will be able to participate with their proposals to be candidates to receive the support of the constituted fund. Information about register form and evaluation criteria for proposals, will be communicated later.

The organizer committee wishes to express an affective acknowledgment and express the gratitude for the great motivation that you have shown during this process and this is why it is doing the best effort to accomplish with all the commitments and expectations of the participants.

We thank you for continuing with your participations and for extending the invitation to the Mexican academic community of the world.

See you in Guadalajara!

SINCERELY

Organizer Committee
